

# AP Biology Practice 5 – Analysis and Evaluation of Evidence Video Review Sheet

[www.bozemanscience.com/apb-practice-5-analysis-evaluation-of-evidence](http://www.bozemanscience.com/apb-practice-5-analysis-evaluation-of-evidence)

1. One of the first things you want to do with data is:
  
2. When you look at data, see if there are patterns that you can
  
3. You will be asked:
  - a. To \_\_\_\_\_ data to Identify
  - b. To \_\_\_\_\_ Observations and
  - c. To \_\_\_\_\_ Evidence
  
4. We collect data. First we have to \_\_\_\_\_ it and then we have to
